Fight the Hard Times with ZERMA

These tough times call for tough equipment. That's why ZERMA offers wear resistant accessories such as:

- Material transport systems including pipe bends, blowers and impellers.
- Cutting chamber wear plates
- Screens
- Complete cutting chambers for GSL series machines

Manufactured from grade 500 wear resistant steels as an option or spare part.

Furthermore we offer weld on hard faced cutting chambers for our shredders as well as rotor and cutting chamber hard facing on all of our granulator models.

Contact us now for the best price in the market
